PART I

PREFACE

1. This Career Field Education and Training Plan (CFETP) is a comprehensive core-training document. It identifies life-cycle education and training requirements, training support resources and minimum core task requirements for the Security Forces (SF) specialty. This CFETP provides all SF personnel [active duty, reserve and Air National Guard (ANG)] a clear career path to success.

2. This CFETP consists of two parts; both parts of the plan assist supervisors in planning, managing and controlling training within the career field.

2.1. Part I provides information necessary for overall management of the specialty. Section A explains how everyone will use the plan. Section B identifies career field path progression information, duties and responsibilities and training strategies. Section C associates each skill level with specialty qualifications (knowledge, training, education, experience and other). Section D indicates resource constraints (for example; funds, manpower, equipment and facilities).

2.2. Part II includes the following: Section A contains the Specialty Training Standard(s) supervisors will use to certify training. Section B course objective list/training standards (Not Used). Section C identifies available support materials provided by Air Force Handbooks (AFHs) and Tactics, Techniques and Procedures (TTP) Guides. Section D identifies where supervisors can find and determine resources available to support training, including both mandatory and optional courses. Section E is reserved to identify major command (MAJCOM) unique training requirements. Unit level supervisors and trainers use Part II to identify, plan and conduct training commensurate with the overall goals of this plan. The core Specialty Training Standard (STS) for AFSC 3P0X1, Appendix A; Military Working Dog STS (AFSC 3P0X1A) Appendix B; and Combat Arms (AFSC 3P0X1B) Appendix C, identify the duties, tasks and technical references required to support unit training; establish Air Education and Training Command (AETC) training requirements; identify core/wartime tasks; and identify correspondence course requirements.

3. CFETP guidance ensures individuals in this specialty receive effective and efficient training at the appropriate point in their careers. This plan will enable us to train today's work force for tomorrow's jobs. At the unit level, supervisors and trainers will use Part II to identify, plan, and conduct training commensurate with the overall goals of this plan.

ABBREVIATIONS/TERMS EXPLAINED

Advanced Training (AT). Formal course that provides individuals qualified in one or more positions of their Air Force Specialty (AFS) with additional skills/knowledge to enhance their expertise in the career field. Training is for selected career airmen at the advanced level of an AFS.

Air Force Handbook (AFH). A concise reference book on the technical aspect of a particular subject or a compilation of factual data and instructional material not subject to frequent change.

Career Field Education and Training Plan (CFETP). A comprehensive, multipurpose document encapsulating the entire spectrum of education and training for a career field. It outlines a logical growth path, including training resources, eliminates duplication, and makes training identifiable and budget defensible.

Continuation Training. Training beyond requirements with emphasis on present or future duty assignments.

Core Task. Required by AFS functional managers as minimum qualification within an AFS or duty position.

Education and Training Course Announcement (ETCA). A complete list of the formal courses available.
<https://etca.randolph.af.mil/>

Exportable Training. Supplemental training; via computer assisted, paper text, interactive video, or other means.

Field Manual (FM). US Army publication used to define key training requirements for certain SF tasks. Use US Army FMs for training only when a FM is listed as a STS line item task training reference.

Initial Skills Training. A formal school course that results in award of a 3-skill level Air Force specialty code (AFSC). (May also include a “qualifying” course before the AFSC awarding course.)

Instructional System Development (ISD). A deliberate and flexible process for planning, developing, and managing training systems, ensuring a cost efficient way to provide job essential knowledge and skills.

Objective Statement. Specifies desired behavior, condition of behavior, and the minimum standard of performance.

Occupational Survey Report (OSR). A detailed report showing the results of an occupational survey of tasks performed within a particular AFS.

On-the-Job Training (OJT). An on-duty training method to certify personnel in both upgrade (skill level award) and job qualification (duty position certification) training. It is hands-on, over-the-shoulder training.

Qualification Training. Actual hands-on task performance-based training designed to qualify airmen in a specific duty position. This training program occurs during and after the upgrade training process. It provides the performance skills training required to do the job.

Resource Constraints. Resource deficiencies such as money, facilities, manpower, and equipment, which preclude delivery of, desired training.

Specialty Training. A mix of formal training (technical school) and informal training (on-the-job) to qualify and upgrade airmen in each skill level of a specialty.

Specialty Training Standard (STS). An Air Force publication that describes an Air Force Specialty in terms of tasks and knowledge that an airman in that specialty performs or knows on the job. It further serves as a contract between Air Education and Training Command (AETC) and the functional user to show overall training requirements taught in formal schools, Career Development Courses (CDCs) and exportable training courses.

Standard. A fixed quantity or quality.

Sustainment Training. Training conducted to sustain skills or knowledge previously acquired.

Task. A unit of work activity or operation which forms a significant part of a duty. A task usually has clear beginning and ending points and is directly observable or measurable.

Training Manual (TM). US Army publication used to define key training requirements for certain SF tasks. Use US Army TMs for training only when a TM is listed as a STS line item task training reference.

Upgrade Training (UGT). Mandatory training that leads to the award of a higher skill level.

Utilization and Training Workshop (U&TW). A forum of Air Force and major command functional managers, subject matter experts, and AETC training personnel that determines Specialty Training Standard requirements and responsibilities for a specialty.

Tactics, Techniques and Procedures (TTP) Guide. A comprehensive information resource package on SF subjects, procedures, or equipment. TTP Guides contain text and test material for qualification and sustainment training, or skills/knowledge enhancement. TTP Guides are suitable for either individual or classroom use. TTP Guides are available on the HQ AFSFC web site.

SECTION A - GENERAL INFORMATION

1. Purpose. Career field managers, commanders, training managers, supervisors, trainers and the training wing use this CFETP to plan, develop, manage and conduct an effective career field training program. This plan outlines the training individuals in AFSC 3P0X1/X1A/X1B must receive to develop and progress throughout their careers. It identifies initial skills, upgrade, qualification, advanced and continuation training requirements. Initial skills training is the AFS specific training an individual receives upon entry into the Air Force, retraining into this specialty or lateral training into either the A or B shred-out. AETC provides this training at Lackland AFB TX for AFSC 3P0X1/X1A/X1B. Upgrade training identifies the mandatory courses, task qualification requirements, CDCs and exportable training courses required for award of the 5-, 7-, and 9-skill levels. Qualification training is actual hands-on task performance training designed to qualify an Airman in a specific duty position. This training program occurs both during and after the upgrade training process. It provides the performance skills/knowledge training required to do the job. The CFETP also serves the following purposes:

1.1. Serves as a management tool to plan, manage, conduct and evaluate a career field training program. It also helps supervisors identify training at the appropriate point in an individual's career.

1.2. Identifies task and knowledge training requirements for each skill level in these specialties and recommends training/education throughout each phase of an individual's career.

1.3. Lists training courses available in the specialty, identifies sources of training and the training delivery method.

1.4. Identifies major resource constraints which impact implementation of desired career field training program.

2. Use. MAJCOM functional managers (MFMs) and supervisors at all levels will use this plan to develop comprehensive and cohesive training programs for each individual in these specialties.

2.1. AETC training personnel develop/revise formal resident and exportable training based on requirements established by users and documented in Part II of this CFETP. They will also work with the Air Force Career Field Manager (AFCFM) to develop acquisition strategies for obtaining resources needed to provide the identified training.

2.2. The MFMs will ensure MAJCOM training programs complement the CFETP mandatory initial skills and upgrade requirements. OJT, resident training, contract training or exportable courseware/courses satisfy identified requirements. MAJCOMS must identify MAJCOM-developed training to support this AFS for inclusion in this plan and must not duplicate training already available.

2.3. Headquarters, Air Force Security Forces Center (HQ AFSFC) develops publications on specific SF subjects, procedures or equipment. MAJCOMs or local units select and localize these publications to fit their needs.

3. Coordination and Approval. HQ AFSFC/SFXT develops this CFETP. The approval authority is AF/A7SM, the AFCFM. MAJCOM Functional Managers and AETC training personnel will identify and coordinate on the career field training requirements. The AETC Training Pipeline Manager for this specialty will initiate an annual review of this document by the AFCFM, AETC and MFMs to ensure currency and accuracy.

SECTION B - CAREER FIELD PROGRESSION AND INFORMATION

1. Specialty Description. SF personnel perform force protection duties, including the use of deadly force, to protect personnel and resources. SF duties ensure combat capability through the functions of installation security, nuclear and conventional weapon systems and resources security, Integrated Defense (ID), police services, military working dog (MWD) activities, and combat arms (CA). SF functions will be performed during peacetime, contingency, and wartime operations. Personnel in this career field will be deployed and employed in sensitive or hostile environments created by terrorism, sabotage, nuclear, chemical, biological or conventional warfare. SF members perform the military police function within the Air Force. Related DoD Occupational Subgroup is 107000.

2. Duties and Responsibilities

2.1. Leads, manages, supervises, and performs force protection duties, including use of deadly force to protect personnel and resources. Protects nuclear and conventional weapons systems and other resources. Performs integrated defense functions contributing to the force protection mission. Controls and secures terrain inside and outside military installations. Defends personnel, equipment, and resources from hostile forces. Operates in various field environments, performs individual, and team patrol movements, both mounted and dismounted, tactical drills, battle procedures, convoys, crisis response and limited contingency operations, antiterrorism duties, and other special duties. Operates communications equipment, vehicles, intrusion detection equipment, crew-served weapons, and other special purpose equipment. Applies self-aid buddy care, life saving procedures, including cardiopulmonary resuscitation, as first responder to accident and disaster scenes.

2.2. Provides armed response and controls entry. Detects and reports presence of unauthorized personnel and activities. Implements security reporting and alerting system. Enforces standards of conduct, discipline, and adherence to laws and directives. Directs vehicle and pedestrian traffic. Investigates motor vehicle accidents, minor crimes, and incidents. Operates speed measuring, drug and alcohol, and breath test devices. Apprehends and detains suspects. Searches persons and property. Secures crime and incident scenes. Collects, seizes, and preserves evidence. Conducts interviews of witnesses and suspects. Obtains statements and testifies in official judicial proceedings. Responds to disaster and relief operations. Participates in contingencies.

2.3. Develops plans, policies, procedures, and detailed instructions to implement SF programs. Plans, organizes, and schedules SF activities. Operates pass and registration activities. Supervises and trains SF augmentees. Provides on-scene supervision for security forces. Inspects and evaluates effectiveness of SF personnel and activities. Analyzes reports and statistics.

2.4. Provides guidance on employment and utilization of military working dog teams. Ensures proficiency training and certification standards are maintained. Employs military working dogs to support worldwide security force operations and executive agency requirements. Ensures health and welfare of military working dogs. Trains handlers and military working dogs on all aspects of military working dog training. Acts as an intruder in dog bite and hold training. Reports and reacts to dog alerts. Maintains dog training and usage records. Responsible for storage, handling, and security of drug and explosive training aids.

2.5. Leads, manages, supervises, and implements ground weapons training programs. Operates SF armories. Controls and safeguards arms, ammunition, and equipment. Instructs ground weapons qualification training. Provides guidance on weapons placement to security forces and ground defense force commanders. Inspects ground weapons and replaces unserviceable parts. Analyzes malfunctions by inspection and serviceability testing. Uses precision gauges, testing instruments, and special tools to adjust parts and operating mechanisms. Function-fires weapons for accuracy and serviceability. Controls and operates firing ranges and associated facilities, to include supervising construction and rehabilitation and certifies other users on range utilization procedures.

3. Skill and Career Progression. It is essential that everyone involved in training contribute to an effective training program. The guidance provided in this part of the CFETP will ensure individuals receive training at the appropriate points in their careers.

3.1. Training Decisions. This CFETP includes life-cycle training requirements for this specialty. Included in this spectrum was the strategy of when, where and how to meet these training requirements. The strategy is apparent,

reduces duplication and eliminates a fragmented approach to training.

3.1.1. Apprentice Level Training (3).

3.1.1.1. Initial skills training in these specialties consists of the task and knowledge training provided in the SF Apprentice Course, the MWD Handler Course and the Combat Arms Apprentice Course.

3.1.1.2. The STS task listings located at Appendices A, B and C identify task and knowledge training requirements. In response to a wartime scenario, an asterisk (*) in the far left column on the STSs indicates a reduced number of tasks that will be taught to the task or knowledge level indicated in the 3-skill level course column in a streamlined technical training environment.

3.1.1.3. Completion of the SF Apprentice Course is required for award of AFSC 3P031. Completion of the MWD Handler Course is required for award of AFSC 3P0X1A. Completion of the Combat Arms Apprentice Course is required for award of AFSC 3P0X1B.

3.1.2. Journeyman Level Training (5).

3.1.2.1. Completion of the SF journeyman (5-level) career development course (CDC) and requirements listed in Table 1, are mandatory for award of AFSC 3P051. Specialty wide core tasks are identified in column 2 (core tasks) by skill level.

3.1.2.2. Personnel must complete the MWD Handler CDC and requirements listed in Table 1, (see note, “must complete core 3P0X1 upgrade requirements prior to entry”) for upgrade to the Suffix A, 5-skill level.

3.1.2.3. Personnel must complete the Combat Arms CDC and requirements listed in Table 1, (see note, “must complete core 3P0X1 upgrade requirements prior to entry”) for upgrade to the Suffix B, 5-skill level.

3.1.3. Craftsman Level Training (7).

3.1.3.1. Completion of the SF 7-level CDCs is a prerequisite for attending the 7-level Craftsman Course. Completion of the requirements listed in Table 1, are mandatory for award of AFSC 3P071. Specialty wide core tasks are identified in column 2 (core tasks) by skill level.

3.1.3.2. Personnel performing duties in AFSCs 3P051, 3P051A, and 3P051B must complete core SF 3P071 upgrade training requirements.

3.1.3.3. Personnel awarded 3P051A or the MWD Handler SEI 311 who hold the position of MWD trainer or kennel-master must complete the MWD Trainer/Supervisor Course.

3.1.3.4. Personnel awarded 3P051B or the Combat Arms SEI 312 who hold the position(s) of Combat Arms/Armory NCOIC or Logistics Superintendent should complete the Combat Arms Supervisors Course. Supervisors of these personnel that do not have a 312 SEI assigned as Combat Arms/Armory NCOIC, may also attend this course.

3.1.4. Superintendent Level Training (9). To earn award of AFSC 3P091, an individual must attain the rank of SMSgt and satisfy any other requirement specified in AFI 36-2101, *Classifying Military Personnel (Officer and Enlisted)*. Continuation training in certain areas is available for use on specific training needs.

3.2. Special Experience Identifiers (SEI). SEIs identify special experience and training not otherwise identified within the personnel data system (PDS). SEIs complement the assignment process but are not substitutes for AFSCs, prefixes or suffixes. They are established when identifying experience or training is critical to the job and assignment match and no other identification is appropriate or available. SEIs permit identification of a resource already experienced to meet unique circumstances, contingency requirements, or management needs. They provide a means to track individuals and identify positions requiring or providing unique experience or training that otherwise would be lost. Refer to AFI 36-2101, for a more detailed explanation of SEIs. A complete listing of SEIs can be found on the Air Force Personnel Center’s web site, in the Air Force Enlisted Classification Directory (AFECD).

The SEIs most often associated with the Security Forces Career field are listed below in numerical order; verify the following information with AFECDD to insure requirements are up-to-date.

SEI 031, Crime Prevention/ Resource Protection. Requires (1) completion of AFIT course WCIP07A, Crime Prevention Theory, Practice, and Management (PDS code 1F2); (2) 12 months of experience in crime prevention/resources protection duties; and (3) recommendation by the base CSF.

SEI 310, Security Forces Non-Lethal Weapons Instructor. Requires successful completion of the 10-day Inter-service Non-lethal Individual Weapons Instructor Course (INLWIC, L5AZA3P071 019 (PDS code WIC) at Fort Leonard Wood MO; certification by immediate supervisor that the individual has instructed two classes within one year of completing the INLWIC; and commander's recommendation.

SEI 311, Military Working Dog Handler. Requires prior qualification in and possession of AFSC 3P051A. Award SEI to AFSC 3P0X1 when personnel upgrade from AFSC 3P051A to 3P071 and reach the grade of TSgt.

SEI 312, Combat Arms. Requires prior qualification in and possession of AFSC 3P051B. Award SEI to AFSC 3P0X1 when personnel upgrade from AFSC 3P051B to 3P071 and reach the grade of TSgt.

SEI 313, Security Forces Sharpshooter. Requires commander's recommendation, completion of the 14-day Close Precision Engagement Course, (Course ID CPEC, PDS Code SFE), and completion of an additional six months of mandatory sharpshooter sustainment training as outlined in SFOI 31-1, *Close Precision Engagement*, Attachment 6. Personnel must be in the grades of SrA thru MSgt.

SEI 321, Security Forces Investigator. Requires completion of L5AZA3P071 0S5A, (PDS Code RZA); or previous courses: L5AZA81172-000, Military Police Investigations (PDS code RZ4), or 50BO8200-000, Special Investigator (PDS code 0D8); or one of the following MAJCOM conducted Military Police Investigator (MPI) courses (completed on or after 1 Jul 85): MP-94, 830-85V, or 830-ASI-V5. Also, requires 12 months of experience as a full time security police investigator and recommendation of the base CSF.

SEI 323, Electronic Security Systems. Requires completion of one of the following courses: L3AZR81150-008 (PDS code ZMV), L4AST81150-007 (PDS code ZMV), L3AZR81150-012 (PDS code 4FR), L4AST81150-012 (PDS code 4FR), L4AST81150-011 (PDS code 4FS), L2AZR3P071-000 (PDS code 8IN) (created Jul 98), L3AZR3P071-009 (PDS code 849) (created Oct 97), L3AZR3P071-012, (PDS code CJO), or L6AZS3P071-000 (PDS code CLO); or completion of both L4AST81150-001 (PDS code T4A) and one of the following courses: L4AST81150-005 (PDS code YO8), L4AST81150-008 (PDS code 2K6), L5AST81150-013 (PDS code 4FT), or L6AZS81150-000 (PDS code 4FR).

SEI 329, Phoenix Raven. Complete the Phoenix Raven Course (PDS code 691) and two flying missions as team leader or team member to Raven required locations and commander's recommendation.

SEI 389, Acquisition Security. Requires completion of a basic systems acquisition course, Air Force Materiel Command course MWE-OPS0002300SU, and 12 months of experience in systems security engineering management, systems security management, or security programming duties.

SEI 816, Nuclear Security Qualified. Requires Personnel Reliability Program (PRP) status code of "D" or "J", Nuclear Experience Identifier (NEI) code of "E" or "I", plus 12 months (minimum) performing or supporting nuclear security at installations tasked with day-to-day nuclear operations, Commander's formal recommendation, and certification.

SEI 822, Nuclear Manager. Requires successful completion of the Air Force Nuclear Management Fundamentals Course, MKVSC93000501SU (PDS code: 2X1) for 3P000/91.

3.3. Community College of the Air Force (CCAF) Academic Programs. Automatic enrollment in CCAF occurs upon completion of basic military training. CCAF provides the opportunity to obtain Associates in Applied Science Degree. The academic requirements for completion of the Criminal Justice Degree Program (CCAF Catalog: 9IJY) are listed below. NOTE: These requirements are subject to change; refer to current CCAF catalog for specifics.

Students enrolled in those programs have six years from the date of degree program registration to complete the program.

3.3.1. Degree Requirements: Program completion requires attainment of journeyman (5-skill) level.

3.3.3. Leadership, Management, and Military Studies (6 SH): Professional military education (PME) or civilian management courses accepted in transfer, and/or by testing credit. The preferred method of completing Leadership, Management, and Military Studies is through attendance at an Airman Leadership School, NCO Academy, and the Air Force Senior NCO Academy. However, civilian courses that emphasize fundamentals of managing human or materiel resources may also apply.

3.3.4. Physical Education (4 SH): Basic military training satisfies this requirement.

3.3.5. General Education (15 SH): Courses accepted in transfer or by testing credit satisfies this requirement.

Subjects/Courses	Semester Hours
Oral Communication (Speech)	3
Written Communication (English Composition)	3
Mathematics Intermediate algebra or a college-level mathematics course satisfying delivering institution's mathematics requirement for graduation. If an acceptable mathematics course applies as a Technical or Program Elective, a natural science course may be substituted for mathematics.	3
Social Science Anthropology, Archaeology, Economics, Geography, Government, History, Political Science, Psychology, Sociology	3
Humanities Fine Arts (Criticism, Appreciation, Historical Significance), Foreign Language, Literature, Philosophy, Religion	3

3.3.6. Program Elective (15 SH): Technical Education; Leadership, Management, and Military Studies; or General Education requirements including: natural science courses meeting General Education Requirement application criteria; foreign language credit earned at the Defense Language Institute or through the Defense Language Proficiency Test; maximum 9 SHs of CCAF degree-applicable technical course credit otherwise not applicable to program of enrollment.

3.4. Occupational Instructor Certification. Upon completion of instructor qualification training, consisting of an instructor methods course and supervised practice teaching, CCAF instructors (enlisted, officer, and civilian) may be nominated by their school commander/commandant for certification as an occupational instructor. Those interested can find the eligibility requirements in the CCAF General Catalog.

4. Career Field Path

Education and Training Requirements	GRADE REQUIREMENTS			
	Rank	Average Sew-On	Earliest Sew-On	High Year Of Tenure
Basic Military Training school				
Apprentice Technical School (3-Skill Level)	Amn A1C	6-10 months		
Upgrade To Journeyman (5-Skill Level) - Minimum 12 months OJT. - Complete appropriate CDC. - Complete all 5 level core tasks in the applicable STS and other duty position tasks identified by the supervisor. <i>NOTE: Retraining personnel are eligible for 5-level upgrade after a minimum of 9 months in upgrade training. Active duty personnel may enter AFSC 3P0X1A and 3P0X1B from the core AFSC 3P0X1.</i>	SrA	36 months	20 or 28 months	12 years
Airman Leadership School (ALS) - Must be a SrA with 48 months TIS or be a SSgt Selectee. - Resident graduation is a prerequisite for SSgt sew-on (Active Duty Only). - AFRC and ANG may attend ALS or complete the PME correspondence course 0001, (NCO Preparation Course)	<u>Trainer</u> Must be qualified to perform task. Trainers will sign-off trainee's records by initialing the trainer's column. Must attend formal AF Training Course and be recommended by the supervisor.			
Upgrade To Craftsman (7-Skill Level) - Minimum rank of SSgt. - 12 months OJT. - Complete appropriate CDC, prior to attending the in-resident Craftsman Course. - Complete applicable 7 level core tasks in the core STS. - Attend resident craftsman course. <i>NOTE: Personnel in retraining status are subject to six months OJT.</i>	SSgt	7.5 years	3 years	20 years
	<u>Certifier not required for SF personnel after 1 April 2004</u>			
Noncommissioned Officer Academy (NCOA) - Must be a TSgt or TSgt selectee. - Resident graduation is a prerequisite for MSgt sew-on (Active Duty Only).	TSgt	12.5 years	5 years	24 years
USAF Senior NCO Academy (SNCOA) - Must be a SMSgt/SMSgt selectee or MSgt identified for attendance. - Resident graduation is a prerequisite for CMSgt sew-on (Active Duty Only).	MSgt SMSgt	16 years 19.2 years	8 years 11 years	26 years 28 years
Upgrade To Superintendent (9-Skill Level) - Minimum rank of SMSgt.				
Upgrade to Security Forces Manager - Attend resident Chief Master Sergeant Leadership Course (MCLC001) as CMSgt-select or CMSgt	CMSgt	21.5 years	14 years	30 years

SECTION C - SKILL LEVEL TRAINING REQUIREMENTS

1. Purpose. This CFETP defines skill levels in terms of tasks and knowledge requirements. This section outlines the specialty qualification requirements for each skill in broad, general terms and establishes the mandatory requirements for entry, award, and retention of each skill level. The STSs located in the appendices of this CFETP.

2. Training Requirements.

2.1. Apprentice Level (3).

2.1.1. Knowledge. Knowledge is mandatory of: SF weaponry; laws, directives, programs and policies, procedures governing SF activities including installation security, weapon system and resource security, antiterrorism, law enforcement and investigations, MWD function, ID, armament and equipment, training, pass and registration and combat arms.

2.1.2. Education. For entry into this specialty, completion of high school with courses in government, behavioral science, computer and communicative skills is desirable.

2.1.3. Training. The following training is mandatory for award of the AFSC indicated:

2.1.3.1. 3P031. Completion of the SF apprentice course satisfies the knowledge and training requirements for award of the 3-skill level.

2.1.3.2. 3P0X1A. Completion of the MWD handler apprentice course. NOTE: SF members must possess AFSC 3P051 prior to entering the MWD handler apprentice course. Direct entry of active duty AFSC 3P031 and prior service personnel may be permitted by HQ USAF/A7SM as required.

2.1.3.3. 3P0X1B. Mechanical score of 35 or better on the ASVAB, completion of the combat arms apprentice course. NOTE: ANG and reserve personnel may enter this course directly (pipeline) from the SF apprentice course. ANG units must have a waiver approved by ANG/A7S prior to submitting a school request. After graduation, they must complete all core and combat arms upgrade requirements. NOTE: Active duty SF members must possess AFSC 3P051 prior to entry. Direct entry of active duty AFSC 3P031 and prior service personnel may be permitted by HQ USAF/A7SM as required.

2.1.4. Experience. The following experience is mandatory for award of the AFSC indicated:

2.1.4.1. 3P031. There is no mandatory military or civilian experience required for award of AFSC 3P031.

2.1.4.2. 3P031A. Qualification in and possession of AFSC 3P051. Also, experience in SF weaponry controlling entry into and providing internal control within installations and restricted areas, response force tactics, ID concepts and procedures, terrorist threat response techniques, alarm monitor duties, control center duties, traffic control, patrolling or accident investigation.

2.1.4.3. 3P031B. Qualification in and possession of AFSC 3P051. Also, experience in SF weaponry controlling entry into and providing internal control within installations and restricted areas, response force tactics, ID concepts and procedures, terrorist threat response techniques, alarm monitor duties, control center duties, traffic control, patrolling or accident investigation. NOTE: ANG and reserve personnel may enter this course directly (pipeline) from the SF Apprentice Course. ANG units must have a waiver approved by ANG/A7S prior to submitting a school request.

2.1.5. Other. The following are mandatory as indicated. For entry, award and retention of AFSCs 3P0X1/X1A/X1B:

2.1.5.1. Normal color vision as defined in AFI 48-123, *Medical Examination and Standards*.

2.1.5.2. No recorded evidence of personality disorder.

2.1.5.3. Visual acuity correctable to 20/20 in one eye and 20/30 in the other.

2.1.5.4. Qualification to bear firearms IAW AFI 31-207, *Arming and Use Of Force By Air Force Personnel* and the Launtenberg Amendment to the Gun Control Act of 1968.

2.1.5.5. Never convicted by a general, special or summary courts-martial.

2.1.5.6. Never received non-judicial punishment under the Uniform Code of Military Justice (UCMJ) which resulted in either reduction or suspended reduction in grade, or correctional custody for offenses involving substantiated drug abuse as defined in AFI 36-2701, *Social Actions Program*, acts of larceny, wrongful appropriation, robbery, burglary, housebreaking, or misconduct in combat as delineated in UCMJ articles 99-106.

2.1.5.7. Never been convicted by a civilian court of a Category 1, 2 or 3 offenses, nor exceeded the accepted number of Category 4 offenses. Category 3 and 4 traffic offenses alone are not disqualifying. NOTE: Categories of offenses are described and listed in AFI 36-2002, *Regular Air Force and Special Category Accession*, and Uniform Guide List of Typical Offenses.

2.1.5.8. Ability to speak distinctly.

2.1.5.9. Individuals who have had their spleen removed are not eligible for award or retention of suffix A or any dog functions. (NOTE: This is a medical precaution related to a reduced ability to fight infection in case of a dog bite.)

2.1.5.10. Must be eligible for a secret security clearance IAW AFI 31-501, *Personnel Security Program Management*.

2.1.6. Training Sources/Resources. Completion of the SF Apprentice Course satisfies the knowledge and training requirements specified in the specialty qualification section (above) for award of the 3-skill level. Completion of the MWD Handler Apprentice Course satisfies the knowledge and training requirements specified in the specialty qualification section for award of the 3-skill level A Shred. Completion of the Combat Arms Apprentice Course satisfies the knowledge and training requirements specified in the specialty qualification section for award of the 3-skill level B Shred. HQ USAF/A7SM approves prior service accessions, as well as MOS conversions, in conjunction with applicable AF classification and management guidance, satisfying award of the 3-skill level without attending the apprentice, MWD handler or combat arms courses. AF publications contain information on a specific duty position, program or piece of equipment.

2.1.7. Implementation. Begin formal training upon initial Air Force accession or retraining into the SF career field. Initiate qualification training to qualify an individual to perform their assigned duties upon arrival at their first duty station. AFRC units will initiate qualification training upon graduation of a formal school.

2.2. Journeyman Level (5).

2.2.1. Knowledge. Knowledge is mandatory of: SF weaponry; laws, directives, programs, and policies; and procedures governing security force activities, including installation security, weapon system and resource security, antiterrorism, law enforcement and investigations, MWD function, ID, armament and equipment, training, pass and registration and combat arms.

2.2.2. Training.

2.2.2.1. 3P051. Must complete the Security Forces Journeyman CDC, must complete a minimum of 12 months on-the-job training (9 months for retrainees) and applicable 5-level core tasks for award of AFSC 3P051.

2.2.2.2. 3P051A. Must complete the Military Working Dog Journeyman CDC (3P051D), a minimum of 9 months on-the-job training and applicable 5-level core tasks on the MWD STS for award of AFSC 3P051A.

2.2.2.3. 3P051B. Must complete the Combat Arms Journeyman CDC (3P051C), a minimum of 9 months on-the-job training and applicable 5-level core tasks on the CA STS for award of AFSC 3P051B.

2.2.3. Experience.

2.2.3.1. 3P051. Qualification in and possession of AFSC 3P031. Also, experience in SF weaponry controlling entry into and providing internal control within installations and restricted areas, response force tactics, ID concepts and procedures, terrorist threat response techniques, alarm monitor duties, control center duties, traffic control, patrolling or accident investigation.

2.2.3.2. 3P051A. Qualification in and possession of AFSC 3P031A (reflecting completion of the resident MWD Handler Course). Also, experience in SF weaponry, maintaining dog handling equipment, caring for and training military working dogs and reacting to dog alerts.

2.2.3.3. 3P051B. Qualification in and possession of AFSC 3P031B (reflecting completion of the resident Combat Arms Apprentice Course). Also, experience in functions such as classroom instruction, marksmanship fundamentals and techniques, weapons and range safety, sub-depot level firearm maintenance and repair, range operations and safety criteria or controlling and storing weapons and ammunition.

2.2.4. Other. See para 2.1.5. above.

2.2.5. Training Sources/Resources. Completion of the SF Journeyman CDC satisfies the knowledge and training requirements specified in the specialty qualification section (above) for award of the 5-skill level. Completion of the Military Working Dog Journeyman CDC satisfies the knowledge and training requirements specified in the specialty qualification section (above) for award of 5-skill level in Military Working Dog Handler. Completion of the Combat Arms Journeyman CDC satisfies the knowledge and training requirements specified in the specialty qualification section (above) for award of 5-skill level in Combat Arms. AF publications contain information on a specific duty position, program, or piece of equipment.

2.2.6. Implementation. Upgrade training may be initiated upon completion of Phase I (Orientation) training. CDCs may be ordered when a trainee arrives at their first duty station. Individuals remain in upgrade training at least 12 months, complete the required CDC and assume the grade of A1C before award of the journeyman (5-skill) level. (NOTE: The minimum upgrade time for personnel retraining into AFSCs 3P0X1A/B is 9 months for completion of 5-level requirements.) Initiate Phase II (Qualification) training to qualify an individual to perform their assigned duties immediately after they complete Phase I. Although Phase II training and the CDCs may be accomplished simultaneously, we recommend the emphasis be put on completion of Phase II first. This will certify the individual to perform their duties while they work toward completing their CDCs.

2.3. Craftsman Level (7).

2.3.1. Knowledge. Knowledge is mandatory of: SF weaponry; laws, directives, programs, and policies; and procedures governing security force activities, including installation security, weapon system and resource security, antiterrorism, law enforcement and investigations, MWD function, ID, armament and equipment, training, pass and registration and combat arms.

2.3.2. Training. Completion of SF craftsman 7-skill level CDCs (must be done before attending the resident course), completion of the resident craftsman course, minimum rank of SSgt, 12 months OJT (six months for retrainees) and applicable 7-level core tasks (on the core STS) are mandatory for award of AFSC 3P071.

2.3.3. Experience. Qualification in and possession of AFSC 3P051. Also, experience supervising or performing functions such as weapon systems and resource security, ID, law enforcement, MWD functions or combat arms functions. (NOTE: Personnel in AFSC 3P051A, who have been awarded a 7-skill level and have attained the rank of TSgt, will be awarded the SEI 311 and their control AFSC will be 3P071. Personnel in AFSC 3P051B, who have been awarded a 7-skill level and have attained the rank of TSgt, will be awarded the SEI 312 and their control AFSC will be 3P071.)

2.3.4. Other. See para 2.1.5. above.

2.3.5. Training Sources/Resources. Completion of the 7-skill level CDC and 7-skill level resident course satisfies the knowledge and training requirements specified in the specialty qualification section (above) for award of the 7-

skill level. AFHs contain information on a specific duty position, program or piece of equipment.

2.3.6. Initiate upgrade training for individuals selected for promotion to Staff Sergeant on the first day of the promotion cycle. The craftsman skill level requires a minimum of 12 months in upgrade training (six months for retrainees) and completion of the required courses (see Table 1). Initiate qualification training to qualify an individual to perform their assigned duties.

2.4. Superintendent Level (9).

2.4.1. Knowledge. Knowledge is mandatory of: SF weaponry, laws, directives, programs and policies and procedures governing security forces activities, including installation security, weapon system and resource security, antiterrorism, force protection, law enforcement and investigations, MWD function, ID, armament and equipment, training, pass and registration and combat arms.

2.4.2. Training. Complete duty position training, as needed.

2.4.3. Experience. Qualification in and possession of AFSC 3P071. Also, experience in leading, managing, and directing SF activities. Examples include: installation security, ID, antiterrorism techniques, weapon systems security, military police and community policing, resources security, combat arms, MWD program or corrections activities.

2.4.4. See para 2.1.5. above.

2.4.5. Training Sources/Resources. AF Publications provide information for job qualification. Continuation (advanced) training courses satisfy specific training needs.

2.4.6. Implementation. Award the 9-skill level upon assuming the rank of SMSgt, for active duty, AFRC and ANG personnel.

2.5. Training Requirements for Retrainees. The minimum upgrade times for retrainees will consist of: 9 months for 5-level and 6 months for 7-level UGT. Complete all other mandatory requirements (including grade requirements) for the applicable skill level prior to award of the skill level.

SECTION D – RESOURCE CONSTRAINTS

The Apprentice Course is limited to 65 days because of manpower and Operations and Maintenance (O&M) funding shortages. AETC estimates an 80-day course is required to meet all training requirements identified by the functional community. Specific constraints are annotated on the Specialty Training Standard (STS) at Appendix A.

SECTION E – TRANSITION TRAINING GUIDE

There are currently no transition training requirements. This area is reserved.

PART II

SECTION A - SPECIALTY TRAINING STANDARD (STS)

1. Implementation. These STSs will be used for technical training provided by AETC.

2. Purpose. As prescribed in AFI 36-2201, *Air Force Training Program*, the STS at appendices A (Core STS), B (MWD STS) and C (Combat Arms):

2.1. Lists the most common tasks, knowledge and technical references (TR) necessary for Airmen to perform duties in the 3-, 5-, and 7-skill level in column 1 (Task, Knowledge, and Technical Reference).

2.2. Specialty-wide Core and Wartime Tasks. The tasks identified in column 2 indicate core tasks by skill level, for the specialty. As a minimum, trainees must complete applicable core tasks for skill level upgrade as indicated by the skill level annotated in column 2. If units encounter situations where training constraints exist (for example, lack of equipment, training areas, etc.), specific waiver action must be submitted through their MAJCOM functional manager, to the AFCFM (AF/A7SM) and if approved, documented in unit and individual training records. MAJCOMs determine the method to record training constraint waivers for their subordinate units. For ANG/AFRC components, waiver authority is HQ Air National Guard and HQ Air Force Reserve SFMs. Wartime tasks are those tasks that must be taught when courses are accelerated in a wartime environment and are identified in the column on the far left of the STS by an asterisk (*). In response to a wartime environment, only tasks identified with an asterisk in this column will be taught in the SF Apprentice Course.

2.3. Provides certification for OJT. Column 3 is used to record completion of tasks and knowledge training requirements. Task certification must show a completed date.

2.4. Shows formal training and correspondence course requirements. Column 4 shows the proficiency to be demonstrated by the graduate upon completion of the resident and correspondence courses.

2.5. Qualitative requirements. A proficiency code key is used in each STS to indicate the level of training and knowledge provided by resident training and career development courses.

2.6. Becomes a job qualification standard (JQS) for on-the-job training when placed in AF Form 623, **Individual Training Record**, and used according to AFI 36-2201. Use the core STS (Appendix A) for all SF personnel. In addition, use the Military Working Dog Handler and Combat Arms STS (Appendices B and C respectively) for personnel awarded the appropriate shred or other SF personnel who are performing duties (in a limited capacity) in those areas. When used as a JQS, the following requirements apply:

3. Documentation. Document and certify completion of training using the electronic Air Force Training Record (AFTR). Identify duty position requirements for every duty position within a unit or organization. As a minimum, complete the following areas of the JQS: Training Start, Training Complete, Trainee Initials, and Trainer Initials.

3.1. Transcribing from old CFETP. Use only the STS from the new CFETP to identify and certify all past and current qualifications. For those tasks previously certified and required in the current duty position, evaluate current qualifications and when verified, recertify using the current date as the completion date and enter trainee's and supervisor's initials (no training is taking place). When transcribing previous certification for tasks not required in the current duty position, carry forward *only* the previous completion dates of certification. If and when transcribed tasks become duty position requirements, recertify using standard certification procedures. The person whose initials appear in the trainer block during the transcription process must meet the requirements of their role.

3.2. Decertification and Recertification. When an Airman is found to be unqualified on a previously certified duty position task, the supervisor deletes the previous certification. Appropriate remarks are entered on the AF Form 623A, **On-The-Job Training Record Continuation Sheet**, as to the reason for decertification. The supervisor will initiate retraining on this task by entering a new training start date. Once the retraining is complete, enter a new training complete date and both the trainer and trainee must enter their initials.

4. Training Standard. Tasks are trained to the "go/no go" level. "Go" means the individual can perform the task

without assistance and meet local demands for accuracy, timeliness and correct use of procedures.

5. Promotion Testing. The core STS is a guide for development of promotion tests used in the Weighted Airman Promotion System (WAPS). Do not use the Military Working Dog Handler or Combat Arms STS. Specialty Knowledge Tests (SKTs) are developed at the USAF Occupational Measurement Squadron by senior NCOs with extensive practical experience in their career fields. The tests sample knowledge of STS subject matter areas judged by test development team members as most appropriate for promotion to higher grades. All SF personnel will be tested on core SF skills only, regardless of duty position. Core SF personnel who retrain into one of the shreds ARE NOT exempt from taking the SKT. Develop only one test for each grade. Questions are based upon study references listed in the WAPS catalog. Individual responsibilities are in AFI 36-2606, *Reenlistment in the United States Air Force*. WAPS is not applicable to the Air National Guard and Air Force Reserve.

6. Report unsatisfactory performance of individual course graduates to 37 TRG/DOS, Lackland AFB, TX, using AF Form 1284, **Training Quality Report (TQR)**. Please reference specific STS paragraphs. Additionally, a customer service information line has been installed for the supervisors' convenience. For a quick response to problems, call the Customer Service Information Line, DSN 473-2917, anytime day or night.

Section B – Course Objective List.

Section B, not used. This area is reserved.

Section C – Support Material.

OJT Support materials consist of Air Force publications (AFI, AFMANs, AFHs), Army Field Manuals, Technical Orders (T.O.) and TTP Guides. These documents contain comprehensive information on SF subjects, procedures or equipment. Use these publications for qualification or sustainment training, or skills/knowledge enhancement.

Section D - Training Course Index.

1. Mandatory Courses for 3P0X1/X1A/X1B:

L3ABR3P031-0S1B	SF Apprentice Course
L8ALR3P031A0H1A	Military Working Dog Handler Course
L3ALR3P031B0B0B	Combat Arms Apprentice Course
L3ACR3P071-0C0A	SF Craftsman Course
5-Level CDC	Career Development Course
MWD CDC	Career Development Course
Combat Arms CDC	Career Development Course
7-Level CDC	Craftsman Career Development Course

2. Other courses available for 3P0X1/X1A/X1B:

L3AZR3P051 0W1A	.50 caliber Machine Gun Course
L3AZR3P051 0W2A	MK 19 Mod 3 40mm Machinegun Qualification Course

QUALITATIVE REQUIREMENTS

Proficiency Code Key		
	Scale Value	Definition: The individual
Task Performance Levels	1	Can do simple parts of the task. Needs to be told or shown how to do most of the task. (Extremely Limited)
	2	Can do most parts of the task. Needs only help on hardest parts. (Partially Proficient)
	3	Can do all parts of the task. Needs only a spot check of completed work. (Competent)
	4	Can do the complete task quickly and accurately. Can tell or show others how to do the task. (Highly Proficient)
*Task Knowledge Levels	a	Can name parts, tools, and simple facts about the task. (Nomenclature)
	b	Can determine step by step procedures for doing the task. (Procedures)
	c	Can identify why and when the task must be done and why each step is needed. (Operating Principles)
	d	Can predict, isolate, and resolve problems about the task. (Advanced Theory)
**Subject Knowledge Levels	A	Can identify basic facts and terms about the subject. (Facts)
	B	Can identify relationship of basic facts and state general principles about the subject. (Principles)
	C	Can analyze facts and principles and draw conclusions about the subject. (Analysis)
	D	Can evaluate conditions and make proper decisions about the subject. (Evaluation)

Explanations

* A task knowledge scale value may be used alone or with a task performance scale value to define a level of knowledge for a specific task. (Example: b and 1b)

** A subject knowledge scale value is used alone to define a level of knowledge for a subject not directly related to any specific task, or for a subject common to several tasks.

- This mark is used alone instead of a scale value to show that no proficiency training is provided in the course or CDC.

X This mark is used to indicate core tasks

NOTE: All tasks and knowledge items shown with an asterisk in the column on the far left of the STS are trained during war time.

Note 1: All personnel must practice weapon safety as outlined in AFI 31-207 and AFMAN 31-229.

Note 2: Line items 42.5.2.2.7. and 42.5.2.3.8. identified with PCK 3b in column 4A(1) have training standards and qualifications requirements prescribed in AFMAN 36-2227, Volume 1 and stated T.O.'s.

Note 3: Units will use the M16 series weapon they have in inventory to meet core task training requirements and properly document the training on an AF Form 797. Once a unit receives all of their M4s they will have until the end of the current firing cycle or 90 days (whichever is longer) to train their personnel on the new weapon.

Note 4: Line items 42.5.2.4.8., 42.5.2.5.8., and 42.5.2.6.7. identified with the PCK 3b in column 4(A)(1) have training standards and qualification requirements prescribed in AFMAN 36-2227, Volumes 1 and 2 and stated T.O.'s. However, students will not "wash-out" if they fail to qualify on those weapons qualification courses. Students' weapons training documents will reflect "UQ" and the reason for not qualifying, with the information provided to their gaining unit for additional training if necessary.

Note 5: The ammunition for the M240B is the same as for the M60. Personnel can be certified on task 5.3.2.4.1 by learning the ammunition types and uses for the M60.

Note 6: The ranges for the M240B and M60 Machine Guns are the same. The range card can be trained without having an M240B and if a weapon is used, an M60 may be substituted.

Note 7: Approved weapons accessories are identified on the Approved Standardized SF Equipment List, located on the AFSFC Web Page. The corresponding technical orders are located on the SF-CTE Web Page.

QUALITATIVE REQUIREMENTS

Proficiency Code Key		
	Scale Value	Definition: The individual
Task Performance Levels	1	Can do simple parts of the task. Needs to be told or shown how to do most of the task. (Extremely Limited)
	2	Can do most parts of the task. Needs only help on hardest parts. (Partially Proficient)
	3	Can do all parts of the task. Needs only a spot check of completed work. (Competent)
	4	Can do the complete task quickly and accurately. Can tell or show others how to do the task. (Highly Proficient)
*Task Knowledge Levels	a	Can name parts, tools, and simple facts about the task. (Nomenclature)
	b	Can determine step by step procedures for doing the task. (Procedures)
	c	Can identify why and when the task must be done and why each step is needed. (Operating Principles)
	d	Can predict, isolate, and resolve problems about the task. (Advanced Theory)
**Subject Knowledge Levels	A	Can identify basic facts and terms about the subject. (Facts)
	B	Can identify relationship of basic facts and state general principles about the subject. (Principles)
	C	Can analyze facts and principles and draw conclusions about the subject. (Analysis)
	D	Can evaluate conditions and make proper decisions about the subject. (Evaluation)

Explanations

* A task knowledge scale value may be used alone or with a task performance scale value to define a level of knowledge for a specific task. (Example: b and 1b)

** A subject knowledge scale value is used alone to define a level of knowledge for a subject not directly related to any specific task, or for a subject common to several tasks.

- This mark is used alone instead of a scale value to show that no proficiency training is provided in the course or CDC.

X This mark is used for core task.

NOTE: All tasks and knowledge items shown with a proficiency code are trained during war time.
